

March 19 call on Triangle Lake

April 10 meeting - details still to be worked out

→ Thursday am meeting for those attending the 4/10

Elizabeth Alben & Scott Downey might go
Richard Kaufman from ATSDR

→ meeting is to discuss changes in study for the spring

Joe Douglas will conduct meeting

= request of the community what they think
should be done next

Ag ODA

Dale's attached emails - request for spray records

= forestry ODF - deadline for records March 23

letters went out - recipients ask for responses by March 20
= Individual applicators names will be redacted, companies
names remain

ODA & ODF will compile into spreadsheet

ATSDR will not do urine sampling this spring

EPA does not have methods for air this spring

= planning for air sampling this fall

ATSDR ^{might} can analyze for DDT as well as Arsenic & 2,4-D
(change in application methods)

Logburg & Seneca are doing more backpack spraying, "the applicators
don't want to fly."

There was a question about a drift study in the area.

Industry "should" provide the data

EPA can issue a "data call-in" for applicators - can take months

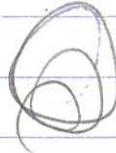

over

- = HQ needs to understand the scope of an air monitoring / drift study for the area
- = Industry might pay if they want to do it voluntarily
- requiring it will take longer.

Jeanette called = 617 918 1020

call Hilton - top of Hilton & open?

Olympic & lounge open @ 3

* 25 shuttle from hotel to airport
6:30 / 7:00 / 7:30 flight to SEA
8:00 am to tag along w/ Helen
